

CULLIGAN BOTTLE-FREE® WATER COOLERS

The future of the drinking water industry offers several advantages:

Safety

- No more lifting 42 lb. bottles or heavy cases
- No slip and fall accidents from spilled water

Sanitary

- Closed system to keep out impurities
- Mitigates the spread of germs

Security

- No more deliveries
- Just one visit a year for maintenance and sanitization

Savings

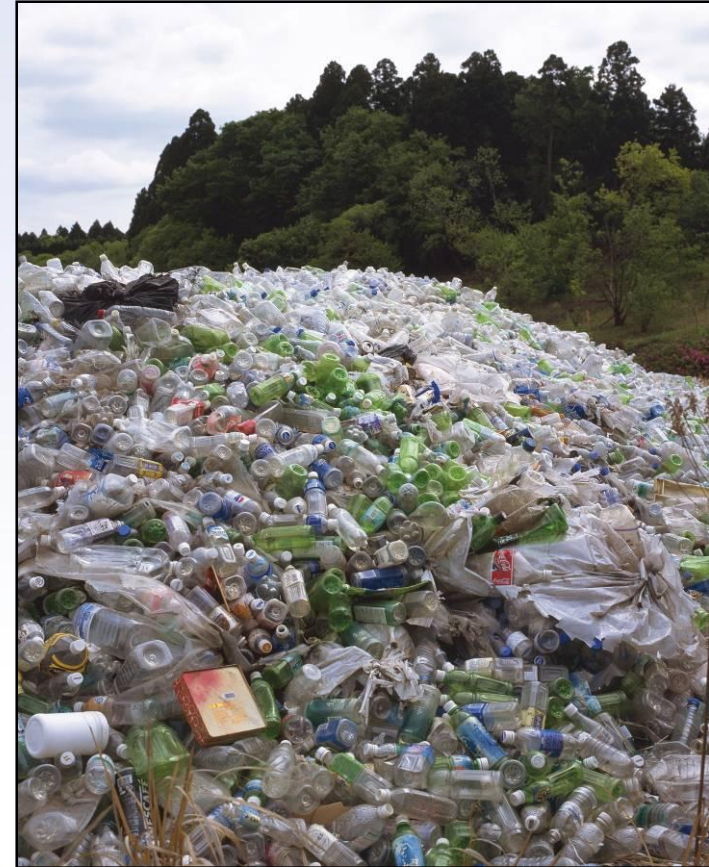

- Fixed cost every month
- Quarterly, consolidated invoicing
- No storage space for bottles

BOTTLE-FREE® SUPPORTS SUSTAINABILITY

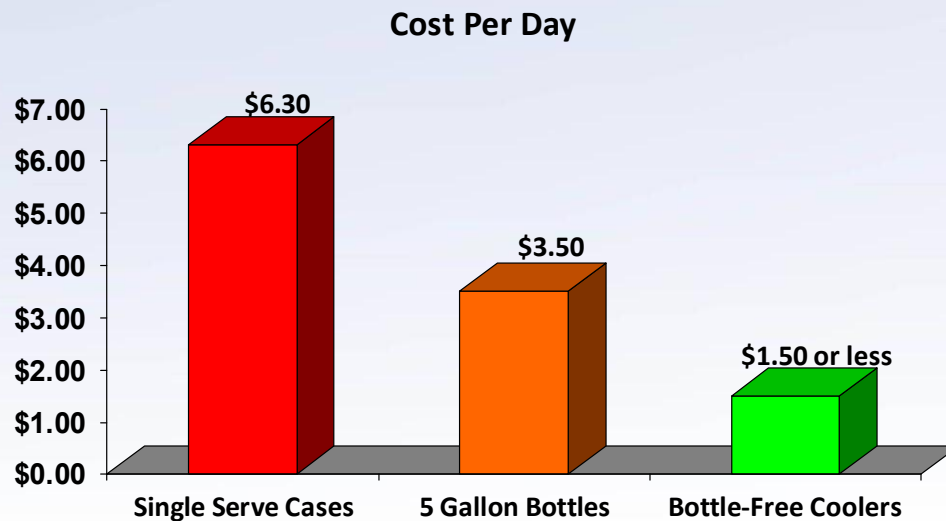

Reduces our reliance on oil, eliminates plastic bottles and reduces our carbon footprint.

- Only about 27% of plastic bottles are recycled¹ – contributing to the %Great Pacific Garbage Patch+
- Producing plastic water bottles:
 - Uses more than 17 million barrels of oil, which could fuel 1.3 million cars for a year.²
 - Produces over 2.5 million tons of carbon dioxide³, which is the same amount emitted by 400,000 cars a year.⁴
- On average, eliminating one 5 gallon bottle of water from your business reduces your carbon footprint by 1.8 pounds⁵

BOTTLE-FREE® COSTS LESS THAN BOTTLED WATER

In addition to all the other benefits, Culligan Bottle-Free® saves you money!

Not just hard dollars, but huge indirect savings too!

- \$ Reconciling delivery tickets
- \$ Fuel surcharges
- \$ Bottle deposits
- \$ Lost bottle fees
- \$ Processing multiple invoices
- \$ Lost productivity from delivery interruptions
- \$ Bottle storage costs (full and empty)
- \$ Potential workers compensation claims

\$ Lots of potential savings
